CANADA'S NEW GOVERNMENT AND ALBERTA INVEST \$6 MILLION IN NEW ARENA FOR CITIZENS OF BROOKS AND THE COUNTY OF NEWELL

Brooks, Alberta – Residents of the City of Brooks will benefit from a \$6 million investment from Canada's New Government and the Government of Alberta towards building a new arena at the Lakeside Leisure Centre.

The federal and provincial governments will contribute \$3 million each under the Canada-Alberta Municipal Rural Infrastructure Fund (CAMRIF). The new, more energy efficient building will replace the 45-year-old Brooks Centennial Arena and will benefit area residents through expanded recreational programs and enhanced facility access for people with disabilities.

The Honourable Monte Solberg, Minister of Human Resources and Skills Development, on behalf of the Honourable Rona Ambrose, Minister of Intergovernmental Affairs and Minister of Western Economic Diversification, and the Honourable Lyle Oberg, Minister of Alberta Finance and MLA for Strathmore-Brooks, on behalf of the Honourable Luke Ouellette, Minister of Alberta Infrastructure and Transportation, made the joint announcement today.

"Canada's New Government is getting things done for the people of Brooks and the county of Newell," said Minister Solberg. "Today's investment will expand recreation programs and improve facility access for people with disabilities – all in a more energy-efficient facility."

"This announcement demonstrates our commitment in responding to the needs of our residents," said Minister Oberg. "This is a significant investment that contributes to the sustainability of Brooks that the residents will benefit from for years to come."

"AUMA's sustainability initiative emphasizes the need to build communities that are economically viable, culturally vibrant, socially inclusive and environmentally responsible, and supported by sound governance practices. The new Brooks Centennial Arena is a fine example of how the CAMRIF can help support our municipalities in achieving long-term sustainability," said AUMA President Bob Hawkesworth.

The Canada-Alberta Municipal Rural Infrastructure Fund is a joint initiative between the Governments of Canada and Alberta that enables communities to address local infrastructure needs. Over the course of CAMRIF, the federal and provincial governments will each contribute \$88 million in funding for municipal infrastructure renewal.

Eligible projects under CAMRIF include water and sewage treatment, solid waste management, public transit and energy improvements to municipal buildings. The fund also supports better roads and bridges, cultural, recreational and tourism projects and improved broadband Internet access. Projects are selected on a competitive basis from applications received from Alberta communities.

Backgrounder

Canada-Alberta Municipal Rural Infrastructure Fund (CAMRIF)

The following project is receiving funding under the Canada-Alberta Municipal Rural Infrastructure Fund (CAMRIF).

City of Brooks

Replacement of the Centennial Arena

Combined federal / provincial investment: \$6,000,000 (pending environmental assessment)

This project will replace the Brooks Centennial Arena and is the third phase in the construction of the Lakeside Leisure Centre.

Fact Sheet

Canada-Alberta Municipal Rural Infrastructure Fund (CAMRIF)

Partnership Program

- The Canada-Alberta Municipal Rural Infrastructure Fund (CAMRIF) is designed to address local infrastructure needs in rural and urban Alberta. It ensures all Albertans, whether they live in large, small or remote communities, share in the benefits of infrastructure investments.
- Through the fund, the Governments of Canada and Alberta invest in local infrastructure projects. These projects are vital to sustaining strong economic growth and quality of life in Canadian communities.
- The federal-provincial CAMRIF Agreement provides \$88 million each in federal and provincial funding for municipal infrastructure renewal, reflecting shared federal and provincial priorities. With matching one-third contributions from municipalities, total program funding will be at least \$264 million.
- CAMRIF is implemented by Western Economic Diversification Canada and Alberta Infrastructure and Transportation, and is administered by a joint secretariat.

Program Priorities

- A minimum of 55 per cent of funding under CAMRIF targets “green infrastructure” projects that contribute to community economic development and environmental quality of life. These include water, wastewater, solid waste, environmental energy improvements and public transit. The fund also invests in recreational infrastructure, tourism and cultural projects, local roads and broadband connectivity.
- At least 80 per cent of CAMRIF funding is dedicated to rural municipalities with a population of less than 250,000. The remaining 20 per cent is available to urban municipalities with a population greater than 250,000.
- A total of \$880,000 is also available to municipalities for Municipal Capacity Building (MCB) projects. Projects may include, but is not limited to, the acquisition of infrastructure planning software, training to use that software, planning studies to determine the inventory and condition of infrastructure assets in the municipality or the development of a demand asset management system.

Local input and collaboration

- CAMRIF is managed by a six member Management Committee consisting of two federal representatives, two provincial representatives, and two members representing Alberta's municipal associations—the Alberta Urban Municipalities Association and the Alberta Association of Municipal Districts and Counties. The Management Committee develops the Management Committee guidelines and oversees the project review and selection process. Projects are selected on a competitive basis from applications received from Alberta communities. The deadline to submit applications for the first intake was July 31, 2006.
- Applications for the second intake will be accepted in Spring 2007.

Environmental Assessment

- CAMRIF projects are required to successfully complete applicable environmental assessment processes, and funding is conditional on compliance with all applicable federal and provincial requirements.

How to apply

- For more information, contact the Canada-Alberta Municipal Rural Infrastructure Fund Joint Secretariat by phone (toll free) at 1-800-396-0214, by e-mail at camrif@gov.ab.ca or visit the website www.camrif.ca.
