FOR IMMEDIATE RELEASE  
March 8, 2007

**Red Deer Residents to benefit from over \$5 million for park upgrades and improvements to local intersection**

**Red Deer, Alberta** – The City of Red Deer will benefit from a \$5 million investment from Canada's New Government and the Government of Alberta in two municipal infrastructure projects that will increase access to local businesses, reduce traffic congestion and promote healthy, active lifestyles.

Through the Canada-Alberta Municipal Rural Infrastructure Fund (CAMRIF), the federal and provincial governments will each contribute \$2 million towards the upgrading of the Gaetz Avenue/32 Street intersection, as well as \$531,000 to redevelop the Bower Ponds and Three Mile Bend recreational areas of the Waskasoo Park.

Bob Mills, Member of Parliament for Red Deer, on behalf of the Honourable Rona Ambrose, President of the Queen's Privy Council for Canada, Minister of Intergovernmental Affairs and Minister of Western Economic Diversification; and Mary Anne Jablonski, MLA for Red Deer-North, on behalf of Luke Ouellette, Minister of Alberta Infrastructure and Transportation; made the joint announcement today.

"Canada's New Government is getting things done for the people of Red Deer," said MP Mills. "This joint investment of over \$5 million will increase the safety of commuters, promote local growth and provide greater access to recreational facilities."

"These projects will not only improve the recreational areas of Waskasoo Park, they will also mean more efficient movement of pedestrians, motorists and goods at an extremely busy intersection," said MLA Jablonski. "These projects are steps towards managing Alberta's growth pressures and improving Albertans' quality of life, two of Alberta Premier Ed Stelmach's five priorities."

-more-

The Canada-Alberta Municipal Rural Infrastructure Fund is a joint initiative between the Governments of Canada and Alberta that enables communities to address local infrastructure needs. Over the course of CAMRIF, the federal and provincial governments will each contribute \$88 million in funding for municipal infrastructure renewal.

Eligible projects under CAMRIF include water and sewage treatment, solid waste management, public transit and energy improvements to municipal buildings. The fund also supports better roads and bridges, cultural, recreational and tourism projects and improved broadband Internet access. Projects are selected on a competitive basis from applications received from Alberta communities.

## **Backgrounder**

### **Canada-Alberta Municipal Rural Infrastructure Fund (CAMRIF)**

The following projects are receiving funding under the Canada-Alberta Municipal Rural Infrastructure Fund (CAMRIF).

#### **City of Red Deer**

##### **Waskasoo Park Area Upgrades**

Combined federal / provincial investment: \$1,062,000 (pending environmental assessment)

This project will upgrade and redevelop the Bower Ponds and Three Mile Bend recreational areas of the Waskasoo Park.

##### **Gaetz Ave. / 32 Street Intersection Upgrades**

Combined federal / provincial investment: \$4,000,000

This project will improve access to businesses adjacent to the Gaetz Avenue / 32 Street Intersection, as well as improve efficiency of movement for pedestrians, motorists and goods.

## Fact Sheet

### Canada-Alberta Municipal Rural Infrastructure Fund (CAMRIF)

#### Partnership Program

- The Canada-Alberta Municipal Rural Infrastructure Fund (CAMRIF) is designed to address local infrastructure needs in rural and urban Alberta. It ensures all Albertans, whether they live in large, small or remote communities, share in the benefits of infrastructure investments.
- Through the fund, the Governments of Canada and Alberta invest in local infrastructure projects. These projects are vital to sustaining strong economic growth and quality of life in Canadian communities.
- The federal-provincial CAMRIF Agreement provides \$88 million each in federal and provincial funding for municipal infrastructure renewal, reflecting shared federal and provincial priorities. With matching one-third contributions from municipalities, total program funding will be at least \$264 million.
- CAMRIF is implemented by Western Economic Diversification Canada and Alberta Infrastructure and Transportation, and is administered by a joint secretariat.

#### Program Priorities

- A minimum of 55 per cent of funding under CAMRIF targets “green infrastructure” projects that contribute to community economic development and environmental quality of life. These include water, wastewater, solid waste, environmental energy improvements and public transit. The fund also invests in recreational infrastructure, tourism and cultural projects, local roads and broadband connectivity.
- At least 80 per cent of CAMRIF funding is dedicated to rural municipalities with a population of less than 250,000. The remaining 20 per cent is available to urban municipalities with a population greater than 250,000.
- A total of \$880,000 is also available to municipalities for Municipal Capacity Building (MCB) projects. Projects may include, but is not limited to, the acquisition of infrastructure planning software, training to use that software, planning studies to determine the inventory and condition of infrastructure assets in the municipality or the development of a demand asset management system.

## **Local input and collaboration**

- CAMRIF is managed by a six member Management Committee consisting of two federal representatives, two provincial representatives, and two members representing Alberta's municipal associations—the Alberta Urban Municipalities Association and the Alberta Association of Municipal Districts and Counties. The Management Committee develops the Management Committee guidelines and oversees the project review and selection process. Projects are selected on a competitive basis from applications received from Alberta communities. The deadline to submit applications for the first intake was July 31, 2006.
- Applications for the second intake will be accepted in Spring 2007.

## **Environmental Assessment**

- CAMRIF projects are required to successfully complete applicable environmental assessment processes, and funding is conditional on compliance with all applicable federal and provincial requirements.
